A large orange pumpkin with a scary face (triangular eyes, jagged mouth) sits on top of another large orange pumpkin with a smiling face (triangular eyes, wide mouth). To the right is a white mask with a smiling face. Below the pumpkins is a collage of magazine clippings and a small mask with a wig.

RANDOM STUFF ABOUT PUMPKIN CARVING

When we were younger, every October, our family would get together to carve pumpkins. It was always a competition to see who could carve the best pumpkin. As we got older, we realized that not everyone is as artistically inclined as others when it comes to carving pumpkins. So, we decided to create pumpkin carving patterns so that everyone can enjoy the activity, regardless of their skill level.

Add a wig to dress up your pumpkin!

DON'T KID YOURSELF

NO GUILT. MORE CANDY!

You shouldn't feel guilty about buying more candy this Halloween - you know you're going to eat it all anyway! And who doesn't love a little extra candy around the house? Buy in bulk and never run out of candy again. Whether you love chocolate, hard candy, or gummy bears,

there's a perfect treat for everyone. With such a large selection, you can always find new favorites to try. Candy is the perfect way to get your sugar fix. It's always there for you when you need it, and it's easy to buy more when you run out.

PUMPKIN CARVING

When it comes to pumpkin carving, we are experts. We have been doing it for years and know all the best tips and tricks. But we'll let you in on a little secret...we didn't always know how to carve pumpkins. In fact, when we first started, we were terrible at it. We would spend hours carving pumpkins, only to have them come out looking like a child had done it.

It was frustrating, to say the least. But we kept at it, week after week, trying to get better. And eventually, we did get better. We started experimenting with different techniques and found some that worked well for us. And we started sharing our pumpkin carving patterns with others, so they could benefit from our experience.

Now, we want to help you avoid the same mistakes we made when we first started carving pumpkins.

GHOSTLY GOOD

PUMPKIN CARVING STENCILS

When we created pumpkin carving stencils, we did it because we were tired of the usual, boring jack-o-lantern designs. We wanted something different, something that would really stand out. And so we made these.

**THE
REMEDY667**

**HALLO
WEEN
SPECIAL**

ur story begins with a love of all things spooky. We were always the ones staying up late to watch the scary movies, and we loved every minute of it. But we noticed that there was something just as intriguing as the artwork on the covers of the VHS cassettes. The lettering.

So, we set out to create the perfect horror fonts inspired by that lettering. We wanted

them to maintaining that feeling of dread and terror, while still feeling like lettering. These fonts are perfect for any Halloween project, or really any time you want to add a bit of scare factor to your work.

We hope you enjoy our fonts as much as we enjoyed making them. Happy Halloween!

A collage of horror-themed images. At the top, a hand holds a knife over a skull. Below, a calendar for 1948 is visible, showing a date with a skull. In the center, a large, bloody skull with a wide, toothy grin is prominent. To the left, a smaller skull is shown with a hand holding a knife. The background is dark and textured, with various horror-related elements scattered throughout.

We know that not everyone will be a fan of our work, but that's okay. We're just trying to stand out from the rest and add some excitement to the world of typography. So if you're looking for something a little different, give **REMEDY667** a try. We guarantee you won't be disappointed.

My name is Nick
and I'm a
g type c designer.

I love making typefaces,
watching old old movies and
listening to all sorts of music.
Most of the fonts I release
are inspired by horror films
and other spooky stuff.

I enjoy making fonts that
don't typically look like fonts.
They contain alternates of
the same character, they're
usually hand drawn, and
they're always display fonts.

I'm always putting out new
fonts, and currently release
new stuff on the 13th of the
month. If you have questions
or suggestions for a type of
font let me know. I'll see
what I can do for you.
