INSTALLING FONTS

Before installing this font, please make sure you have a backup of any previous versions, as this version will overwrite them with updates that may cause issues and incompatibilities in file you may have built using a previous version. SpookyFonts does not host or keep record of previous versions of fonts on hand.

WINDOWS

- 1.) Unzip the folder containing the font first. Fonts cannot be installed if they are zipped.
- 2.) Right click on the font file and select Install.

MAC - USING FONTBOOK

- 1.) Double click the unzipped font file and Font Book will open a preview of the font.
- 2.) Click "Install Font" at the bottom of the preview.

REMEDY667

My name is Nick
and I'm a
g type c designer.

I love making typefaces, watching old horror movies and listening to all sorts of music. Most of the fonts I make are inspired by old horror films, books, comics and other spooky stuff.

I've been creating fonts for years at Remedy667, but recently started SpookyFonts to expand the capabilities of my website. I also wanted to experiment with licensing and release some stuff I otherwise wouldn't have.

I'm always putting out new fonts. So, be sure to check out my websites and follow me on Instagram... Thanks for checking out my type catalog.
